

# Horicon Public Library

---

## **Library Social Media Policy**

Horicon Public Library uses several social networking platforms to inform patrons and to encourage community involvement in the library. The social networking platforms are used by staff to provide information on library services, resources, and programs, as well as to build community and connect with patrons online. Patrons are invited to share opinions about library-related subjects and issues. These comments may be used to evaluate current programs and to plan future programs.

Patrons are expected to follow the basic rules of civility: comments may not be obscene, defamatory, or threatening. Library staff reserves the right to edit or remove any comment that is deemed inappropriate or not related to the discussion to which it is attached. By using this service, patrons agree to abide by the library social media policy.
